VOLUNTARY CONSENT FOR SERVICES AND RELEASE OF INFORMATION

I voluntarily consent to care that may involve routine diagnostic tests, procedures, and/or medical treatment as prescribed by my physician and/or advance practice registered nurse and performed by employees of Norton Occupational Medicine. No guarantee has been given by anyone as to the results of the care to be provided. I also consent and agree to provide breath, blood, hair and/or urine sample(s) for the purposes of testing for the presence of alcohol and/or drugs. I authorize these samples to be sent out to the laboratory for analysis if needed.

I understand and acknowledge that I may require the services of physicians or other health care providers who are not employees of Norton Occupational Medicine, including, but not limited to, radiologists. I agree that Norton Healthcare is not responsible for and does not assume any liability for the activities of any such physicians or practitioners who are not its employees.

I authorize any treating physician/nurse practitioner and/or Norton Occupational Medicine to disclose to my employer, potential employer, or insurance carrier, as appropriate, any information regarding this treatment and/or related tests and services. I understand that any refusal to submit for testing, or refusal of certain tests, may subject me to adverse consequences with the requesting party and/or any applicable government agencies. I acknowledge that a copy of the Privacy Practices has been made available to me.

Norton Healthcare Telemedicine Informed Consent

I understand that telemedicine is the use of electronic information and communication technologies by a health care provider to deliver services to an individual when he/she is located at a different site than the provider; and hereby consent to Norton Healthcare providing health care services to me via telemedicine. The information discussed may be used for diagnosis, therapy, follow-up and/or education.

Expected Benefits:

- Improved access to care by enabling a patient to obtain services from providers at distant sites.
- Patient remains closer to home where local healthcare providers can maintain continuity of care.
- Reduced need to travel for the patient or other provider.

The Process:

You will be introduced to the provider and anyone else who is in the room with the provider. You may ask questions of the provider or any telemedicine staff in the room with you, if you are unsure of what is happening. If you are not comfortable with seeing a provider on videoconferencing technology, you may reject the use of the technology and schedule a traditional face-to-face encounter at any time. Safety measures have been implemented to ensure that this videoconference is secure, and no part of the encounter will be recorded without your written consent.

Possible Risks:

There are potential risks associated with the use of telemedicine which include, but may not be limited to:

- A provider may determine that the telehealth encounter is not yielding sufficient information to make an appropriate clinical decision.
- Technology problems may delay medical evaluation and treatment for your encounter.
- In very rare instances, security protocols could fail, causing a breach of privacy of personal medical information.

By Signing this Form, I understand the following:

1. I understand that the laws that protect privacy and confidentiality of medical information also apply to telemedicine, and that no information obtained in the use of telemedicine which identifies me will be disclosed to researchers or other entities without my consent.

2. I understand that I have the right to withdraw my consent to the use of telemedicine in the course of my care at any time, without affecting my right to future care or treatment.

3. I also understand that if the provider believes I would be better served by a traditional face-to-face encounter, they may, at any time stop the telemedicine visit and schedule a face-to-face visit.

4. I understand that I may expect the anticipated benefits from the use of telemedicine in my care, but that no results can be guaranteed or assured.

Patient Consent to the Use of Telemedicine:

I have read and understand the information provided above regarding telemedicine, and all of my questions have been answered to my satisfaction. I hereby give my informed consent for the use of telemedicine in my care.

I hereby authorize Norton Healthcare to use telemedicine in the course of my diagnosis and treatment.
